

## Client Testimonial

**Date: 9th May 2016**

We have had the pleasure of working with Blond during the design and prototyping of our medical wearable project.

From the outset of the project James Melia and Mike Goyen were welcoming, friendly and very forthright with honest advice which we instantly recognised as a profoundly positive point during the initiation of the design process. Throughout the project this behaviour continued and we saw evolved professionalism from the entire Blond Design team. We arranged multiple presentations during the course of the design and found ourselves more and more impressed as our product came to life.

We received our finalised design and having built trust and rapport we hastily moved to create prototype products through a known contact of the Blond team. We are excited to see our product take-off and feel we could not have achieved such quality without Blond.

One thing we have to point out is the effort the guys have put into our project – James literally cut to pieces his own property for the sake of accuracy and detail while designing our product. We felt as if Blond really went above and beyond their remit for us.

Thank you Blond and we look forward to working together in the near future.

Maxwell Denega & Marta Allery

Maxwell and Marta are happy to be contacted in regards to this testimonial. If you would like to contact them, please email [hello@blond.cc](mailto:hello@blond.cc) - we would be happy to put you in touch.
